PORTOFOLIO

About Project

The app is designed with a user-friendly interface, making it easy for users to play and navigate through the interesting questions. I ensure that users can enjoy a smooth experience with a clear and responsive scoring system as well as additional features such as leaderboards to motivate healthy competition among players.

Tech Stack

Front End

- React Native
- Typescript
- Socket IO
- Google-Signin

Backend

- Express
- Golang
- GRPC
- PostgreSql
- Restful Api
- Laravel
- Midtrans
- Redis
- Gorilla

PORTOFOLIO

HUMANOID AI WEB

About Project

I was inspired to create this website due to the increasing use of robots to replace human jobs in the current technology era. Therefore, I have developed this website for the sale of robots, which can showcase features such as purchasing.

Tech Stack

Front End

- React + Vite
- Swiper
- Bootstrap
- Chakra UI
- React Hook

Backend

- Typescript
- Javascript
